- Data Entry
- Microsoft Office
- Inpage
- Canva
- Browsing

Language

- Urdu (Professional)
- English (Conversional)

Reference

Will be furnished on demand.

About me

Motivated BS Computer Science Graduate with hands-on experience in web development through a final year project (React, Flask, AI integration). Basic foundation in HTML, CSS, and programming logic (C++, Python), with a passion for building clean, functional websites. Seeking a Web Development internship to apply technical skills in a real-world environment and grow as a front-end developer.

Technical Proficiency

- HTML:** Comfortable creating structured web pages using HTML5, including headings, forms, tables, links, and semantic tags to organize content properly.
- CSS:** Basic understanding of CSS3 for styling web pages — working with colors, fonts, spacing, and simple responsive layouts to make pages look clean and organized.
- JavaScript:** Have introductory-level knowledge of JavaScript, including variables, functions, and loops, with the ability to add basic interactivity like button clicks and form validation.
- Git & GitHub:** Repository creation, project uploading, basic version control.
- Visual Studio Code:** Writing, debugging, and running code.

Project

CV Builder & ATS Score Checker

Tech Stack: React 18, Flask (Python), PyMuPDF, DeepSeek API

- Developed a full-stack web application that generates AI-powered resumes and cover letters by dynamically mapping user data into structured HTML templates, with regex-based content cleaning.
- Built an ATS Intelligence Suite using PyMuPDF for multi-page PDF text extraction, producing a quantified resume-to-job-description match score along with a SWOT-based optimization report.

Experience

Data Entry Operator

June 2019 - Dec 2020

Tehsil Compound Vehari

I am an experienced Data Entry Operator skilled in MS Word, InPage, FBR portals, E-Stamps, and E-Challans. I handle records with accuracy, speed, and professionalism, ensuring error-free documentation and smooth office workflow
